9. CENTRAL BANKING

Mr. Slattery reported having discussed the experiences of Cooperative Federation N.S.W. in their development of central banking services. These discussions are to be continued in Sydney on 12th June.

10. ANNUAL CONFERENCE

The Executive Officer reported that due to the unavailability of the Government Pavilion at the R.A.S. Showground a reservation has been made at the Olympia Room, Olympic Park. A revised programme of speakers is in preparation following the unavailability of 4 of those previously agreed by Council.

11. REPORTS

11.i Advisory Council

Mr. Long reported this Council met on 14th May.

The present proposal is for the Bill for a new Co-operation Act to be introduced into the Parliament in the opening weeks of the 1981 Spring session.

The Registrar is represented on the Government Funding Committee of the Community Employment Cooperative Development Programme.

Consideration is being given to raising interest rates on Government guaranteed loans in the light of current higher interest rates.

11.ii Executive Officer

Mr. Rawlinson reported on proposals for a merger of Moe Cooperative Dairying Co. with Drouin Cooperative Butter Factory.

Since the last meeting his time has been occupied with visits to N.S.W. planning the International Study Course and with planning and organising the Employment Cooperatives Workshop at Ballarat.

11.iii Cooperative Federation of Australia

Mr. Slattery reported on his attendance at a meeting of a C.F.A. Committee held in Sydney comprising the Presidents

of the Cooperative Federations of N.S.W. and W.A. and himself, convened to consider closer relationships of C.F.A. with A.F.C.U.L.

13.

That meeting agreed an immediate priority objective of the C.F.A. should be the protection of present taxation benefits for Cooperatives.

14.

That meeting also discussed the merits of restructuring the C.F.A. to make more effective use of resources by establishing one National Federation to which all Cooperatives in Australia could affiliate with necessary State services being provided through State Boards and current staff being employed by the national body for service on a regional basis. The importance of maintaining State services at least at present level with the anticipation of increasing such services was emphasised. The State Board would appoint two representatives to a national board which, in turn, would be responsible for allocation of resources of funds and staff to areas of most need.

In discussion, Council expressed support for the concept but could not see that such a restructuring would provide any services that have not always been available.

Such a structure could present problems of division of funds between States. It could also be more concerned with the larger Cooperative whose benefits from Taxation concessions are larger.

Legislative provisions have now been included to enable the Federation of Victoria to become an incorporated body. Progress is being made in our relations with State Government. A restructuring as proposed could be counter-productive in Victoria.

The meeting agreed the maximum involvement of major Cooperatives is essential to provide funds to service the many needs of the smaller Cooperatives.

It was agreed Mr. Slattery should have further discussion in the C.F.A. Committee on 12th June following which Council would study any practical proposals that might be submitted by C.F.A.

Mr. Slattery reported the meeting with A.F.C.U.L. representatives had otherwise been inconclusive.

## 12. OTHER BUSINESS

The Chairman reported having met the Secretary, Cooperative Dairy Factories Association from which it appears unlikely that there will be group affiliation of Cooperative Dairy Companies with the Federation.
